CONTENTS OF 104B

Vol. 104B, No. 1

Mini Review

David Sheehan and James P. Casey 1 Microbial glutathione *S*-transferases

General Papers

David Sheehan and James P. Casey 7 Evidence for Alpha and Mu class glutathione *S*-transferases in a number of fungal species

L. D. van der Walt, F. H. van der Bank and G. J. Steyn 15 Allozyme variation in domesticated African catfish (*Clarias gariepinus*) from The Netherlands

Isami Tsuboi, Khomei Yanagi, Kuniharu Wada, Shoji Kimura and Seiichi Ohkuma 19 Isolation and characterization of a novel sialic acid-specific lectin from hemolymph of *Limulus polyphemus*

Seiichiro Himeno, Akiko Takekawa and Nobumasa Imura 27 Species difference in hydroperoxide-scavenging enzymes with special reference to glutathione peroxidase in guinea-pigs

André Rousset and Colette Bitsch 33 Comparison between endogenous and exogenous yolk proteins along an ovarian cycle in the firebrat *Thermobia domestica* (Insecta, Thysanura)

T. D. G. Watson, L. Burns, D. J. Freeman, C. J. Packard and J. Shepherd 45 High density lipoprotein metabolism in the horse (*Equus caballus*)

G. S. Baldwin 55 Comparison of sequences of the 78 kDa gastrin-binding protein and some enzymes involved in fatty acid oxidation

Peter Johnson and Janet L. Hammer 63 Cardiac and skeletal muscle enzyme levels in hypertensive and ageing rats

Julia Rainer and Marius Brouwer 69 Hemocyanin synthesis in the blue crab *Callinectes sapidus*

Norimasa Matsuoka, Megumi Inamori and Miho Sugawara 75 High genetic variability in the starfish *Distolasterias nippon* revealed by enzyme electrophoresis

Susumu Takeda, Masaaki Azuma, Masanobu Itoh and Masaharu Eguchi 81 The strain difference and analysis of polymorphic nature of membrane-bound alkaline phosphatase in the midgut epithelium of the silkworm, *Bombyx mori*

G. McCaffrey and J. C. Jamieson 91 Evidence for the role of a cathepsin D-like activity in the release of Galβ1–4GlcNAcα2–6sialyltransferase from rat and mouse liver in whole-cell systems

Jill R. Beyette, Jian-Shan Ma and Donald L. Mykles 95 Purification and autolytic degradation of a calpain-like calcium-dependent proteinase from lobster (*Homarus americanus*) striated muscle

D. M. Vankan and K. Bell 101 Caprine plasma proteinase inhibitors—I. Partial characterization

D. M. Vankan and K. Bell 109 Caprine plasma proteinase inhibitors—II. Genetic analysis

Darold Holten, Jesus R. Carlos, Lisa Kibbee Reichert and Roderick Nakayama 115 Regulation of liver glucose-6-P dehydrogenase levels in female rats

Arnold Sauter, Günter Kegel and Dietrich Sedlmeier 119 Lysine derivatives in crustacean calmodulins: a comparative study on five decapod species

Fiona Brander, Jacqueline S. Keith and Paul Trayhurn 125 A 27-mer oligonucleotide probe for the detection and measurement of the mRNA for uncoupling protein in brown adipose tissue of different species

Emel Arınç and Alaattin Şen 133 Characterization of cytochrome *P*450 dependent mixed-function oxidase system of gilthead seabream (*Sparus aurata*; Sparidae) liver

Susana J. Pasquaré and Norma M. Giusto 141 Differential properties of phosphatidate phosphohydrolase and diacylglyceride lipase activities in retinal subcellular fractions and rod outer segments

F. Castellano, M. Bocchetta, G. Bruscalupi and A. Trentalance 149 Lipoprotein metabolism in the frog *Rana esculenta*

Charles A. Lessman 155 Taxol-induced assembly of brain and testis tubulins, and ovarian follicle tubulin dynamics in the frog (genus *Rana*), *in vitro*

Francisco Correa Sandoval, Luis Fernando Bückle Ramírez and Domenico Voltolina Lobina 163 The biochemical composition of the cysts of some Mexican populations of *Artemia franciscana* Kellogg, 1906

Masaaki Kurata, Masatoshi Suzuki and Keisuke Takeda 169 Differences in levels of erythrocyte glutathione and its metabolizing enzyme activities among primates

J. L. Soengas, P. Barciela, J. Fuentes, J. Otero, M. D. Andrés and M. Aldegunde 173 Changes in muscle carbohydrate metabolism in domesticated rainbow trout (*Oncorhynchus mykiss*) after transfer to seawater

Carl B. Massey and Stephen A. Watts 181 Modified forms of histones H3 and H4 exhibit seasonal patterns in testes of the sea star *Asterias vulgaris*

P. O. Lomo, D. W. Makawiti and V. N. Konji 187 Respiratory activity of isolated liver mitochondria following *Trypanosoma congolense* infection in rabbits: the role of thyroxine

P. Mondola, M. Santillo, A. Belfiore, L. Camardella and F. Santangelo 193 The thymus hypocholesterolemic factor (TphF): a bovine thymic superoxide dismutase active on HMG-CoA reductase

Masaya Asano and Yasuo Mugiya 201 Biochemical and calcium-binding properties of water-soluble proteins isolated from otoliths of the tilapia, *Orechromis niloticus*

Vol. 104B, No. 2

Mini Review

Stephen S. Wachtel and Terrence R. Tiersch 207 Variations in genome mass

General Papers

Halim Maaroufi and Jean Noël Lamy 215 The quaternary structure of *Scorpio maurus* hemocyanin: comparison with *Androctonus australis* hemocyanin

G. Mörsch and F. Leibenguth 229 DNA fingerprinting of the roe deer, *Capreolus capreolus* L.

Akikazu Yasuda, Yoko Naya and Koji Nakanishi 235 Isolation of Antho-RFamide related peptides from the eyestalks of blue crab

Partha P. Banerjee, Subhadra Banerjee, San-Tai Shen, Yung-Hsi Kao and John Yuh-Lin Yu 241 Studies on isolation and properties of two isoforms of pituitary gonadotropin from black silver carp, *Aristichthys nobilis*

Ramiro Barcia, José Antonio Villamarin and Juan Ignacio Ramos-Martinez	255	Fructose-1,6-bisphosphatase in mantle of the sea mussel *Mytilus galloprovincialis* Lmk—IV. The enzyme as substrate of cyclic AMP-dependent protein kinase
K. Kirby Moore, P. J. Cameron, P. A. Ekeren and S. B. Smith	259	Fatty acid-binding protein in bovine *longissimus dorsi* muscle
Jerapan Krungkrai	267	A novel form of orotate reductase that converts orotate to dihydroorotate in *Plasmodium falciparum* and *Plasmodium berghei*
Antonio R. Díaz, Pilar Pérez-Grau and Claudio F. Heredia	275	2′:3′ cyclic nucleotide 3′ phosphodiesterase in *Artemia* and other organisms
Hoda I. Negm, Ahmed M. Abo Eisha, Mohamed H. Mansour, Abdel Hakim M. Saad and Fathi M. Abdel Galil	281	Isolation and partial characterization of a low molecular weight immunoglobulin from snake (*Psammophis sibilans*) serum
Jiasong Fang, Paul A. Comet, James M. Brooks and Terry L. Wade	287	Nonmethylene-interrupted fatty acids of hydrocarbon seep mussels: occurrence and significance
R. Hao, R. F. Pfeiffer and M. Ebadi	293	Purification and characterization of metallothionein and its activation of pyridoxal phosphokinase in trout (*Salmo gairdneri*) brain
Eric C. Dietze, Joseph Stephens, Jacques Magdalou, Daniel M. Bender, Mary Moyer, Beth Fowler and Bruce D. Hammock	299	Inhibition of human and murine cytosolic epoxide hydrolase by group-selective reagents
Eric C. Dietze, Josefina Casas, Eiichi Kuwano and Bruce D. Hammock	309	Inhibition of epoxide hydrolase from human, monkey, bovine, rabbit and murine liver by *trans*-3-phenylglycidols
Kazuhiko Ishihara and Kyoko Hotta	315	Comparison of the mucus glycoproteins present in the different layers of rat gastric mucosa
Marielle Estrade, X. Vignon, E. Rock and G. Monin	321	Glycogen hyperaccumulation in white muscle fibres of RN^- carrier pigs. A biochemical and ultrastructural study
Mary M. Brodey and Stephen H. Bishop	327	Cytosolic and mitochondrial L-malate dehydrogenases from ribbed mussel (*Modiolus demissus*) gill tissue
Sai On Chan, Susanna Siu Chun Wong and Desmond Chak Yew Yeung	341	Insulin induction of *c*-Ki-*ras* in rat liver and in cultured normal rat hepatocytes
A. Matthiensen, E. Tellechea and J. A. Levy	349	Biochemical characterization for the genetic interpretation of esterase isozymes in *Micropogonias furnieri* (Pisces, Sciaenidae) in south Brazil
Shane Lavery and D. R. Fielder	353	Low allozyme variation in the coconut crab *Birgus latro*
James L. Pipkin, Jeanne F. Anson, William G. Hinson, Lascelles E. Lyn-Cook, Henry M. Schol, E. Robert Burns, Ritchie J. Feuers, Daniel A. Casciano and Daniel M. Sheehan	361	Comparative studies of synthesis, phosphorylation, DNA binding and proteolytic characteristics of a novel protein during phases of the mouse spleen cell cycle
Alexander Vershinin and Olga N. Lukyanova	371	Carotenoids in the developing embryos of sea urchin *Strongylocentrotus intermedius*
P. Parenti, M. Villa, M. Tasca, P. Belgiojoso, G. M. Hanozet and B. Giordana	375	A rapid and sensitive *in vitro* assay for the activity of *Bacillus thuringiensis* δ-endotoxins

H. C. Kwon, S. Hayashi and Y. Mugiya 381 Vitellogenin induction by estradiol-17β in primary hepatocyte culture in the rainbow trout, *Oncorhynchus mykiss*

Julia Maillou and I. A. Nimmo 387 Albumin-like proteins in the serum of rainbow trout (*Salmo gairdneri*)

Julia Maillou and I. A. Nimmo 395 8-Anilino-1-naphthalene sulphonate binds to a high-density lipoprotein in the serum of rainbow trout (*Salmo gairdneri*)

Julia Maillou and I. A. Nimmo 401 Identification and some properties of an albumin-like protein in the serum of pre-spawning Atlantic salmon (*Salmo salar*)

Francisco Vargas-Albores, María-Antonia Guzmán and José-Luís Ochoa 407 A lipopolysaccharide-binding agglutinin isolated from brown shrimp (*Penaeus californiensis* Holmes) haemolymph

Kimberly A. Kampman, Timothy G. Ramsay and Michael E. White 415 Developmental changes in hepatic IGF-2 and IGFBP-2 mRNA levels in intrauterine growth-retarded and control swine

S. I. Drokin 423 Phospholipids and fatty acids of phospholipids of sperm from several freshwater and marine species of fish

Vol. 104B, No. 3

Mini Reviews

J. Vijg and J. A. Gossen 429 Somatic mutations and cellular aging

Ilana Cohen and Michal Schwartz 439 cDNA clones from fish optic nerve

General Papers

Boonsirm Withyachumnarnkul, Anchalee Pongsa-Asawapaiboon and Boonserm Poolsanguan 449 Characteristics of the enzyme *N*-acetyltransferase in the optic lobe of the giant freshwater prawn, *Macrobrachium rosenbergii* de Man

Janet M. Cottrell, Ian F. Henderson, John A. Pickett and Denis J. Wright 455 Evidence for glycosaminoglycans as a major component of trail mucus from the terrestrial slug, *Arion ater* L.

D. C. Rule 469 Effect of fluoride on the ATP requirement for glycerolipid biosynthesis in adipose tissue of four mammalian species

B. Matkovics, V. Kecskemeti, Sz. I. Varga, Z. Novak and Zs. Kertesz 475 Antioxidant properties of di- and polyamines

Halina Trembacz and Maria M. Jeżewska 481 Specific adenosine phosphorylase from hepatopancreas of gastropod *Helix pomatia*

Andrew T. Large and Martin J. Connock 489 Aromatic alcohol oxidase and aldehyde oxidase activities in the digestive gland of three species of terrestrial gastropod (*Helix aspersa*, *Arion ater*, *Limax flavus*)

L. H. Teo and J. P. Woodring 493 The trehalase of the house cricket *Acheta domesticus* L. (Orthoptera: Gryllidae)

D. W. Payne and N. A. Thorpe 499 Carbohydrate digestion in the bivalve *Scrobicularia plana* (Da Costa)

Ruth R. do Nascimento, Johan Billen and E. David Morgan 505 The exocrine secretions of the jumping ant *Harpegnathos saltator*

Nobuyuki Kanzawa, Osamu Sato, Hiromi Takano-Ohmuro and Koscak Maruyama 509 Sea anemone (*Actinia equina*) myosin

S. A. Ahmad and T. L. Hopkins 515 Phenol β-glucosyltransferases in six species of insects: properties and tissue localization

Neil S. Ringan, Lisa Grayson, Pedro R. Lowenstein, Elizabeth A. Linton, Philip J. Lowry and Maria G. Castro 521 Prediction of protein antigenic sites in human corticotrophin-releasing hormone precursor

P. Ibáñez, M. D. Garcerá, E. Alcácer, F. Conill and R. Martínez 531 Effect of starvation on haemolymph vitellogenins and ovary uptake in *Spilostethus pandurus*

Masaharu Eguchi, Masanobu Itoh, Li-Ying Chou and Kaori Nishino 537 Purification and characterization of a fungal protease specific protein inhibitor (FPI-F) in the silkworm haemolymph

M. Treviño, M. J. Mancebo, E. J. Ferran and J. Espinosa 545 Biochemical properties of adenylate cyclase in the labial palps of the mussel *Mytilus galloprovincialis* Lmk

Frank Y. T. Sin, Evan Ingley and Peter N. Johnston 551 *In vitro* DNA synthesis in the left colleterial gland of *Periplaneta americana* from different stages of the reproductive cycle

Takaki Kawaguchi 559 Chemical nature of collagen in the dermis of the lamprey, *Entosphenus japonicus*

Danielle Fortin, Jean-François Coulon and Andrée G. Roberge 567 Comparative study of biochemical parameters and kinetic properties of dopamine-β-hydroxylase activity from cat and rat adrenals

Prapaporn Utarabhand 577 Partial purification of cyclic guanosine monophosphate phosphodiesterase from sea urchin (*Strongylocentrotus purpuratus*) sperm

Tamarah Files and Julian Lombardi 583 Free amino acids in the uterine fluids of four species of viviparous sharks (*Squalus acanthias*, *Carcharhinus plumbeus*, *Mustelus canis* and *Rhizoprionodon terraenovae*)

Gheorghe Benga, Tudor Borza, Octavian Popescu, Dorin Poruțiu and Horea Matei 589 Comparative nuclear magnetic resonance studies of diffusional water permeability of red blood cells from sheep and cow

Bernard Fried, Joseph Sherma, K. Sundar Rao and R. G. Ackman 595 Fatty acid composition of *Biomphalaria glabrata* (Gastropoda: Planorbidae) experimentally infected with the intramolluscan stages of *Echinostoma caproni* (Trematoda)

Euridice Carmona, Fernanda C. V. Portaro, Luiz Juliano, Zuleika P. Picarelli and Eline S. Prado 599 Further characterization of bothropain, a cysteine peptidase from the plasma of the snake *Bothrops jararaca*

N. Bourhim, M. S. Elkebbaj, L'H. Ouafik, T. H. Chautard, P. Giraud and C. Oliver 607 Opioid binding sites in jerboa (*Jaculus orientalis*) brain: a biochemical comparative study in the awake-active and induced hibernating states

Valery M. Dembitsky, Tomaš Rezanka and Andrey G. Kashin 617 Comparative examination of phospholipids and fatty acids from some Caspian invertebrates

Florence Lassalle, Maguy Lassègues and Philippe Roch 623 Serological evidence and amino acid sequence of ubiquitin-like protein isolated from coelomic fluid and cells of the earthworm *Eisenia fetida andrei*

Heidi Venter and Keith L. Manchester 629 Detection of the 9-kDa vitamin D-dependent calbindin gene in a fruit bat (*Rousettus aegyptiacus*) fibroblast cell line

Vol. 104B, No. 4

Mini Reviews

Tatsuo Nakayama, Shinji Takechi and Yasunari Takami 635 The chicken histone gene family

Juan Ignacio Ramos-Martínez, José Antonio Villamarín, Ramiro Barcia, Maria Dolores Vazquez Illanes and Izaskun Ibarguren 641 The role of fructose 2,6-bisphosphate in the regulation of marine mussels (*Mytilus galloprovincialis* and *Mytilus edulis*) glycolysis/gluconeogenesis

General Papers

J. P. Panno and B. A. McKeown 649 Expression of the *myc* proto-oncogene in the rainbow trout, *Oncorhynchus mykiss*

Michael W. Fleming 653 Ecdysteroids during development in the ovine parasitic nematode, *Haemonchus contortus*

Roy van Brummelen and Siegbert Bissbort 657 Chicken eggshell porphyrins and the glyoxalase pathway: its possible physiological role

Shigeru Kimura, Yuji Omura, Masami Ishida and Hiroko Shirai 663 Molecular characterization of fibrillar collagen from the body wall of starfish *Asterias amurensis*

Gerald Mulryan and James Mason 669 Bovine serum amine oxidase: some differences between chromatographically defined forms including sensitivity to inhibition by dithiomolybdate

Willard O. Granath Jr and James E. Aspevig 675 Comparison of hemocyte components from *Schistosoma mansoni* (Trematoda)-susceptible and resistant *Biomphalaria glabrata* (Gastropoda) that cross-react with larval schistosome surface proteins

S. F. Chew and Y. K. Ip 681 Respiration in the muscle mitochondria of the mudskipper, *Boleophthalmus boddaerti*

Luis Sánchez Palazón and Antonio Rodríguez-Burgos 689 Protein synthesis by chick (*Gallus domesticus*) extraembryonic membranes

Amal A. Rady 695 Effect of change in environmental temperature on antioxidant enzyme activities and lipid peroxidation in red blood cells of carp

J. Lōhr, J. Klein, S. G. Webster and H. Dircksen 699 Quantification, immunoaffinity purification and sequence analysis of a pigment-dispersing hormone of the shore crab, *Carcinus maenas* (L.)

Russell G. Kerr and Paul C. Southgate 707 Isolation of gorgosterol from symbiont-free giant clam eggs and larvae

S. Kappus, R. Apweiler, C. J. Branford White and W. J. D. Whish 711 *In vitro* poly-(ADP-ribosyl)ation of chromatin proteins in the rat tapeworm, *Hymenolepis diminuta*

K. Dabrowski, R. Lackner and C. Doblander 717 Ascorbate-2-sulfate sulfohydrolase in fish and mammal. Comparative characterization and possible involvement in ascorbate metabolism

Maja Hrženjak, Đorđe Kobrehel, Sonja Levanat, Mislav Jurin and Terezija Hrženjak 723 Mitogenicity of the earthworm's (*Eisenia foetida*) insulin-like proteins

Lizabeth L. Brumley, Sergey Bogachev, Nikolai N. Kolesnikov, J. Herbert Waite and Steven T. Case 731 Divergence and conservation of epitopes in intermediate-size secretory proteins from three species of *Chironomus*

Yoshio Kera, Hisae Nagasaki, Akio Iwashima and Ryo-hei Yamada 739 Gender dependence of D-aspartate oxidase activity in rat tissues

Ulrika V. Mikel and Gunter F. Bahr 743 A comparative study of DNA amount and nuclear dry weight in four different species (*Rana catesbeiana*, *Salmo gairdneri*, *Gallus domesticus* and *Homo sapiens*)

E. R. B. Graham, H. A. McKenzie and W. H. Murphy	747	The isolation and properties of whole casein: some implications for comparative studies
Jack Rose and Charles Wert	759	Prolactin binding sites in the adrenal glands of mink (*Mustela vison*)
L. D. Van der Walt, F. H. Van der Bank and G. J. Steyn	765	An association between glucose-6-phosphate isomerase phenotypes and rapid growth in the African catfish (*Clarias gariepinus*)
Jacques Lautier, Aimée Maleville, Henri Cousse, Gilbert Mouzin and Jean Lagarrigue	769	Variations in fatty acid composition of phytoplanktonic production in sewage treatment ponds at Meze. Effects on the valorization of microalgal biomass
Jacques Lautier, Aimée Maleville, Henri Cousse, Gilbert Mouzin and Jean Lagarrigue	775	Variations in amino acid composition of phytoplanktonic production in sewage treatment ponds at Meze. Effects on the valorization of microalgal biomass
Kazuhiko Ishihara, Jin-ichi Kameyama and Kyoko Hotta	781	Development of an HPLC method to estimate hexosamines and its application to determine mucin content in rat and human gastric mucosa
Toshiharu Furusawa, Akihiko Narutaki, Kazuhiko Mitsuda and Noriyuki Teramoto	787	Stage-dependent limited degradation of vitellin and its localization in the Japanese oak silkworm, *Antheraea yamamai*, during embryonic development
Toshiharu Furusawa, Eiji Takayama, Ryoji Ishihara and Yoshiyuki Hayashi	795	Double-stranded ribonuclease activity in the digestive juice and midgut of the silkworm, *Bombyx mori*
Huai-Jen Tsai, Ku-Lin Lin and Thomas T. Chen	803	Molecular cloning and expression of yellowfin porgy (*Acanthopagrus latus* Houttuyn) growth hormone cDNA
Moshe Tom, Ofer Shenker and Michael Ovadia	811	Partial characterization of three hemolymph proteins of *Penaeus semisulcatus* de Haan (Crustacea, Decapoda, Penaeidae) and their specific antibodies
Adri-Ann Roos, Ryno J. Naudé and Willem Oelofsen	817	The isolation and partial characterization of alanine aminopeptidase from ostrich (*Struthio camelus*) duodenal mucosa
Gabriel E. Dimattia and Catherine B. Lazier	825	Expression of the albumin gene in the yolk sac and liver during chick embryogenesis
Ehud Ilan and James Haroun	833	Physicochemical features and oxygenation properties of extracellular hemoglobin from the leech, *Macrobdella decora*
